

**REPRESENTATIVE DRIEHAUS WELCOMES HHS FUNDING FOR UNIVERSITY OF CINCINNATI**

**WASHINGTON, DC**—Representative Steve Driehaus today welcomed an announcement by the Department of Health and Human Services (HHS) of a \$1,679,342 grant for the University of Cincinnati. The award will support research efforts at the university.

“Once again, the University of Cincinnati has been chosen to conduct critical research and training efforts that will affect thousands of workers across the country. This is a smart investment for our community that will help to strengthen and protect our workforce,” said Rep. Driehaus.

This funding will help train students from the University of Cincinnati’s Environmental Health Department to work to reduce occupational illness and safety. Many students in this program go on to work for the National Institute for Occupational Safety and Health (NIOSH) and many corporations in the Cincinnati area. Rep. Driehaus has supported the continuation and funding for this program.
